

## Card reader

### General features

- **Upgradeable reader**  
Integrated features that can be natively activated on demand: dematerialized access, customized configurations...
- **Extended compatibility**  
Support for ISO14443 & 15693-compliant identification platforms.
- **Dematerialized access**  
Via LINEGUARD Access application (BLE) or Apple & Google wallets.
- **Advanced customization**  
LEDs (matrix & line) and buzzer fully configurable on LINEGUARD Studio.
- **Interoperable reader**  
Integration of all protocols and technologies in a single reference.
- **Enhanced safety**  
Available in transparent mode and compliant with ANSSI (CSPN) recommendations.
- **Eco mode**  
Automatic detection of users via radar for optimized sleep & wake-up times.

### Unique readers made in France

### Interoperable readers for all access control systems

LINEGUARD is a single reader reference, no matter the protocol. Each device integrates two technologies:

- TTL (Wiegand),
- RS485 (OSDP or SSCP).

A single solution for extended compatibility.

### Combining innovation with sustainable design
